

I claim:

1. A game comprising:

- (a) a game board having a general scoring area;
- (b) one or more blocking pieces configured to be positioned to said game board; and
- (c) one or more scoring pieces configured to be positioned to said game board.

2. The game of claim 1 wherein the blocking pieces are positioned on said game board by tossing each of said blocking pieces onto said game board.

3. The game of claim 2 wherein the blocking pieces are tossed onto said general scoring area to define a specific scoring area.

4. The game of claim 3 wherein said scoring pieces are positioned on said game board by tossing each of said blocking pieces onto said game board.

5. The game of claim 1 wherein each of the blocking pieces includes a magnet for fixedly positioning the blocking pieces to the game board.

6. The game of claim 1 wherein each of the scoring pieces includes a magnet for fixedly positioning the blocking pieces to the game board.

7. The game of claim 1 wherein:

- (i) the game board has a top surface with a base attachment means;
- (ii) the blocking pieces have a complementary attachment means; and
- (iii) the base attachment means and complementary attachment means cooperate to affix the blocking pieces to the game board.

8. The game of claim 7 wherein the base attachment means is a magnet and the complementary attachment means is another magnet.

9. The game of claim 8 wherein:

- 5
- (iv) the scoring pieces include said complementary attachment means; and
  - (v) the base attachment means and complementary attachment means of the scoring pieces cooperate to affix said scoring pieces to said game board.

10 10. The game of claim 9 wherein:

- (vi) the blocking pieces include said base attachment means; and
- (vii) the base attachment means of the blocking pieces and the complementary attachment means of the scoring pieces cooperate to affix said scoring pieces to said blocking pieces.

11. The game of claim 7 wherein the base attachment means is one part of a hook and loop fastening system and the complementary attachment means is another part of a hook and loop fastening system.

12. The game of claim 11 wherein:

- (iv) the scoring pieces include said complementary attachment means; and
- (v) the base attachment means and complementary attachment means of the scoring pieces cooperate to affix said scoring pieces to said game board.

13. The game of claim 12 wherein:

- (vi) the blocking pieces include said base attachment means; and
- (vii) the base attachment means of the blocking pieces and the complementary attachment means of the scoring pieces cooperate to affix said scoring pieces to said blocking pieces.

14. The game of claim 7 wherein the game board further includes a primary fastener for attaching the game board to a support.

15. The game of claim 13 wherein the primary attachment means is a magnet.

16. The game of claim 1 wherein:

- (i) the game board is configured to be positioned on a magnetic support;
- (ii) the blocking pieces have a complementary attachment means; and
- (iii) the base attachment means and complementary attachment means cooperate to affix the blocking pieces to the game board.

17. The game of claim 16 wherein the complementary attachment means is a magnet.

18. The game of claim 17 wherein:

- (iv) the scoring pieces include said complementary attachment means; and
- (v) the base attachment means and complementary attachment means of the scoring pieces cooperate to affix said scoring pieces to said support on top of said scoring surface.

19. The game of claim 18 wherein:

- (vi) the blocking pieces include said base attachment means; and
- (vii) the base attachment means of the blocking pieces and the complementary attachment means of the scoring pieces cooperate to affix said scoring pieces to said blocking pieces.

20. A game comprising:

- (a) a game board;
- (b) one or more receiving pieces for positioning on said game board to define one or more general scoring areas;

- (c) one or more blocking pieces for positioning on said game board to define one or more specific scoring areas; and
- (d) one or more scoring pieces for positioning on said game board.

5 21. The game of claim 20 wherein the receiving pieces are positioned on said game board by tossing each of said blocking pieces onto said game board.

22. The game of claim 20 wherein the blocking pieces are positioned on said game board by tossing each of said blocking pieces onto said game board.

10

23. The game of claim 20 wherein the blocking pieces are tossed onto said general scoring areas to define the specific scoring areas.

15

24. The game of claim 20 wherein said scoring pieces are affixed to said game board by tossing each of said blocking pieces onto said game board.

25. The game of claim 20 wherein each of the blocking pieces includes a magnet for fixedly positioning the blocking pieces on the game board.

20

26. The game of claim 20 wherein each of the scoring pieces includes a magnet for fixedly positioning the blocking pieces on the game board.
